### **FOR IMMEDIATE RELEASE**

#### **Allegheny Energy Completes \$700 Million Debt Refinancing**

**GREENSBURG, Pa., June 16, 2005** – Allegheny Energy, Inc. (NYSE: AYE) today announced that it has obtained a new credit facility and term loan. Proceeds were used to refinance its existing credit facility and will also be used to refinance \$300 million (principal amount) 7.75% Senior Notes due August 1, 2005.

“This refinancing will reduce interest expense by about \$8 million per year,” said Allegheny Energy Chairman, President and Chief Executive Officer Paul J. Evanson. “The favorable interest rate on the new credit facility and the recent upgrades to our credit ratings demonstrate our improving financial condition.”

The new \$400 million senior unsecured revolving credit facility and \$300 million senior unsecured term loan both have five-year maturities. The company intends to delay funding the term loan until August 1, 2005, to coincide with the maturity of the 7.75% Senior Notes. Both the revolving credit facility and the term loan will carry an initial interest rate equal to the London Interbank Offered Rate (LIBOR) plus 200 basis points, with decreases in the rate possible if the company’s credit ratings improve from current levels.

Total debt outstanding is unchanged by the refinancing. Joint lead arrangers for the refinancing are Citigroup Global Markets Inc. and Scotia Capital USA Inc. Bank of America Securities LLC, Credit Suisse First Boston and PNC Bank NA are joint bookrunners.

#### **Allegheny Energy**

Headquartered in Greensburg, Pa., Allegheny Energy is an investor-owned utility consisting of two major businesses. Allegheny Energy Supply owns and operates electric generating facilities, and Allegheny Power delivers low-cost, reliable electric service to customers in Pennsylvania, West Virginia, Maryland, Virginia and Ohio. For more information, visit our Web site at [www.alleghenyenergy.com](http://www.alleghenyenergy.com).

#### **Forward-Looking Statements**

*In addition to historical information, this release contains a number of "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. Words such as anticipate, expect, project, intend, plan, believe, and words and terms of similar substance used in connection with any discussion of future plans, actions, or events identify forward-looking statements. These include statements with respect to: regulation and the status of retail generation service supply competition in states served by Allegheny Energy’s distribution business, Allegheny Power; financing plans; demand for energy and the cost and availability of raw materials, including coal; provider-of-last-resort and power supply contracts; results of litigation; results of operations; internal controls and procedures; capital expenditures; status and condition of plants and equipment; regulatory matters; and accounting issues. Forward-looking statements involve estimates, expectations and projections and, as a result, are subject to risks and uncertainties. There can be no assurance that actual results will not materially differ from expectations.*

*Actual results have varied materially and unpredictably from past expectations. Factors that could cause actual results to differ materially include, among others, the following: changes in the price of power and fuel for electric generation; general economic and business conditions; changes in access to capital markets; complications or other factors that render it difficult or impossible to obtain necessary lender consents or regulatory authorizations on a timely basis; environmental regulations; the results of regulatory proceedings, including proceedings related to rates; changes in industry capacity, development and other activities by Allegheny Energy's competitors; changes in the weather and other natural phenomena; changes in the underlying inputs and assumptions, including market conditions used to estimate the fair values of commodity contracts; changes in laws and regulations applicable to Allegheny Energy, its markets or its activities; the loss of any significant customers or suppliers; dependence on other electric transmission and gas transportation systems and their constraints or availability; changes in PJM, including changes to participant rules and tariffs; the effect of accounting policies issued periodically by accounting standard-setting bodies; and the continuing effects of global instability, terrorism and war. Additional risks and uncertainties are identified and discussed in Allegheny Energy's reports filed with the Securities and Exchange Commission.*
